FOLLOW-UP / INSPECTION / TRAINING

## POST-STARTUP EQUIPMENT SERVICE PROGRAMS FOR YOUR PATCHER

Following initial startup and training on your Bergkamp pothole patching equipment, we offer our B-FIT program, which provides additional care for your investment. As of September 1, 2018, all patchers sold to domestic government agencies will have 1-year of B-FIT included from the date of delivery.

**B-FIT** **B-FIT:** Bergkamp Follow Up / Inspection / Training provides the customer with at least one B-FIT Technician visit per year.

**B-FIT >>>** **B-FIT VISIT :** A visit will include up to 16 hours of travel and 8 hours of technician time. Extra time can be negotiated at time of scheduling.

**FOLLOW-UP:** A B-FIT Technician will contact the operating manager and fleet service manager at least 4-weeks prior to a B-FIT visit to determine if the customer has any specific problems or questions with the unit.

**INSPECTION:** A B-FIT Technician will travel to the customer's location and perform a 66 point complete inspection of the patcher. The B-FIT Technician will review this inspection with both the customer's fleet and operations teams. This review will cover all systems with an emphasis on those that are not performing to new standards.

**TRAINING:** A B-FIT Technician will provide refresher training to both the operators and mechanics as requested.

### PURCHASE ADDITIONAL B-FIT VISITS- COST PER VISIT
